

News and Updates

Due to the new definition of Broadband all internet providers must abide by SkyNet has now increased its speeds, while maintaining the same pricing!!! All of our plans meet the requirements to be considered Broadband internet, not just one of them but all of them. SkyNet will work hard to be your leading Business Broadband provider.

New site just added by Bear Canyon to expand the network and a new site in Livingston soon to come!!!!

Important!!! If you plan on using VoIP on SkyNet service please go to the VoIP section and read about our low cost VoIP Prioritization if you want VoIP to work well.
